ZD3 (1989)Owned by Irish Acts Recording Studio - Hosted by KORG USAHere's one of the rare and amazing old Korg 3 delay  
boxes.. It doesn't need it but I try to accumulate potentially difficult to find parts for my equipment and just happen to have  
purchased one.. For example, delay #1 can be routed into delay #2 at 50%, and also into delay #3 at 80%, while at the same time  
delay #3 can be routed into delay #2 at 20%.. I've listed it as in good condition but really it's in great condition for it's age and in  
perfect working condition.. What makes this unit so unique are it's routing options Each of the delays can be routed into each of  
the other delays.
